How to Use This Book

Welcome! This book helps kids and teens understand big feelings and learn calm, kind ways to handle them. Feelings are not good or bad - they are messengers. This book builds the skills to listen to them and choose what to do next.

Every page is printable and reproducible for your home or classroom. Go at the reader's pace, and celebrate effort more than 'right answers.'

For Grown-Ups

- ☐ Do the activities alongside the child when you can - your calm helps them feel safe.
- ☐ Name feelings out loud together; naming a feeling helps shrink it.
- ☐ Never punish a feeling. Coach the choice that comes after it.
- ☐ Revisit favorite pages often - skills grow with practice, not one-time reading.

Tip: There are no wrong answers here. Every feeling is okay. What matters is what we choose to DO with big feelings.

Grows With the Reader (Ages 5-17)

This book is built for a wide range of ages. Younger children can color, trace, and point to feelings faces. Older kids and teens can use the same pages for journaling, deeper reflection, and building real coping plans.

Younger (about 5-9)

- ☐ Color the feelings faces and calm-down pictures.
- ☐ Trace the calming words and short affirmations.
- ☐ Do the breathing shapes with a grown-up.

Older kids & teens (about 10-17)

- ☐ Write in the journal and reflection spaces.
- ☐ Work through the 'What would you do?' scenarios.
- ☐ Build and personalize your own coping toolkit and calm-down plan.

My Feelings Thermometer

RED - Big feeling

YELLOW - Getting bigger

GREEN - Calm & okay

What can I do at each level? Write above.

Where Do I Feel It?

Big feelings live in our bodies too. Anger might feel hot in your chest. Worry might feel like butterflies in your tummy. Color or mark where you feel your feelings.

Draw or color:

-  Hot / angry feelings
-  Fluttery / worried feelings
-  Heavy / sad feelings
-  Calm / good feelings

When I feel calm, I can help others by...

How Far I've Come

Look how much you've learned! Tick everything you can do now (or are practicing).

My Personal Calm-Down Plan

This is YOUR plan for big feelings. Fill it in and keep it somewhere you'll see it. You can update it any time as you learn what helps.

When I notice a big feeling, my body signal is...

Three calm-down tools I will try first are...

A safe person I can talk to is...

Words I can say to myself are...

A calm place I can go is...

Good Things & Gratitude

Noticing good things helps calm our minds and lift our mood. It doesn't erase hard feelings, but it reminds us that good things are here too.

Three good things about today

Someone I'm thankful for - and why

Draw something that makes you smile:

A large, empty rectangular box with rounded corners and a thin grey border, intended for a drawing.

Letter to Myself

- Write a kind letter to yourself for a day you feel a big feeling.

- What do you want to remember?

- What would you tell a friend feeling the same way?

My Growing Skills

● One feeling I understand better now is...

● One thing I can do when it gets big is...

● I feel proud that I can...

Slowing Down My Mind

● When my mind feels busy, I can...

● A quiet thing I enjoy is...

● One slow, calm thing I will do today is...
