How to Play & Learn

This activity book turns learning into play. Print the pages, cut out the cards along the dashed lines, and use the mats and games again and again. Playing the same game more than once is where the learning sticks.

Builds decision-making by sorting everyday actions into good and poor choices, then talking about the results of each.

Tips for grown-ups

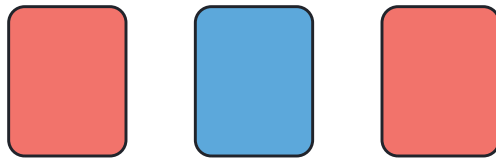

- ☐ Print on card stock if you can, so the cut-out cards last longer.
- ☐ Cut out the cards together along the dashed lines - it builds fine-motor skills.
- ☐ Play each game more than once; repetition is where the learning sticks.
- ☐ For older kids, ask 'why?' after every answer to deepen thinking.
- ☐ Keep it playful - praise trying, not just getting it right.

Ages 5-19: how it grows

- ☐ Younger (5-9): match, sort, and color with hands-on cards.
- ☐ Middle (10-13): play the games and explain WHY each answer fits.
- ☐ Older (14-19): use the discussion and reflection prompts to go deeper.

MATCH

What Happens Next?

Match each choice to what might happen next.

- | | |
|---|---|
|  You tell the truth | you make a friend  |
|  You share | others feel upset  |
|  You cut in line | you can make things right  |
|  You help clean up | the room gets done faster  |
|  You break a rule | people trust you  |
|  You say sorry | someone could get hurt  |

Make the Choice

Read each situation. Write a GOOD choice you could make. For older kids: explain the consequences of a poor choice too.

- Your friend drops their books in the hallway...

- You really want a turn but someone else is using it...

- You broke something by accident and no one saw...

Answer Key

For grown-ups: here are suggested answers. Many activities have more than one good answer - use these as a guide and talk through the child's thinking.

1. Good choices -> Sharing, truth, helping, apologizing, waiting, doing homework
2. Poor choices -> Hitting, lying, taking, cutting in line, ignoring rules, being mean
