How to Play & Learn

This activity book turns learning into play. Print the pages, cut out the cards along the dashed lines, and use the mats and games again and again. Playing the same game more than once is where the learning sticks.

Builds science knowledge about animals and habitats by matching each animal to the home where it lives, then sorting by habitat.

Tips for grown-ups

- ☐ Print on card stock if you can, so the cut-out cards last longer.
- ☐ Cut out the cards together along the dashed lines - it builds fine-motor skills.
- ☐ Play each game more than once; repetition is where the learning sticks.
- ☐ For older kids, ask 'why?' after every answer to deepen thinking.
- ☐ Keep it playful - praise trying, not just getting it right.

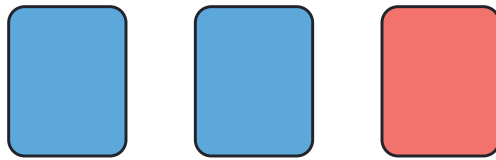

Ages 5-19: how it grows

- ☐ Younger (5-9): match, sort, and color with hands-on cards.
- ☐ Middle (10-13): play the games and explain WHY each answer fits.
- ☐ Older (14-19): use the discussion and reflection prompts to go deeper.
